

The StoreWatch® Ranger family of Digital Video Recorders (DVR) is the answer to your C-Store digital surveillance needs!

For installations that include StoreWatch® Plus backoffice software, StoreWatch® Ranger will allow you to run both applications on the IBM ThinkCentre® computer simultaneously. For applications where a stand-alone DVR is applicable, StoreWatch® Ranger LT is your answer. Either way, you have the security and reliability you need to successfully manage your store, or chain of stores.

StoreWatch® Ranger operates in a Windows XP environment and provides you with 16 camera channels, high frame rates, motion detection, easy drag and drop scheduling, digital water-marking and remote access via modem, LAN or internet. With the power of the IBM ThinkCentre, StoreWatch Ranger can easily operate on the same computer as StoreWatch Plus, saving you money and valuable space. Don't let these features make you think StoreWatch Ranger is out of your budget. It is the affordable solution to C-Store management.

Get control in all aspects of your store today with StoreWatch Plus, and StoreWatch Ranger.

StoreWatch Ranger

StoreWatch Ranger LT

StoreWatch® Ranger LT is the stand-alone platform of choice that provides you with 16 camera channels, a built-in hard drive and CD Read/Write drive, and a stable LINUX operating system. The perfect solution to VCR replacements, Ranger LT provides you with the features you want at an affordable price. With motion detection, alarm inputs and output, scheduling, and internet access, you have the perfect solution to your stores needs.

Aztech combines Ranger LT with a 17 inch flat panel display to provide you with a complete solution, and we can provide consulting for your camera placement, backup, and camera selections, if desired. We can provide you with a turn-key solution to all your C-Store needs. Let us show you today!
